Norris Green

Dear Miss Martin,

I am writing to you regarding the University of Cumbria's Web development opening, which I discovered on jobs.ac.uk and would like to express my interest.

I am currently studying level 3 computing at SAE Institute, Liverpool, and would like to progress into a career in computing and web design and development.

Computing and web design have always been a huge passion of mine and I have spent many years gaming and designing websites at home, it has been a very exciting hobby for me. I have also completed some web design projects at college and university that have been hugely successful.

I have attached a copy of my cv and would be extremely grateful if you were to take a look and consider me for the position, I feel that I would make a great addition to your team and hope to hear from you in the very near future.

Regards,

Aaron McGuinness
